WOODWARD L'ORANGE BUILDS BRIDGES TO ITS DIGITAL FUTURE

Woodward L'Orange GmbH is a German engineering manufacturing company headquartered in Stuttgart, Germany. It is one of the leading manufacturers of injection systems for large diesel engines worldwide. It developed and produced the first common-rail system for large diesel engines.

“In the IT department, there’s no better ally than JiVS IMP. It enables us to support business scenarios like acquisitions, divestments, solution migrations, and more. As an information management platform, JiVS IMP provides the bridge to our digital future.”

Markus Benz
Manager HR Technologies
Woodward L'Orange

SITUATION

- Woodward L'Orange needed to extract the personnel data on 3,100 employees from the previous owner's HR system – SAP HCM – and transfer it to new IT infrastructure
- They could not change the data's structure as it needed to comply with legal regulations as well as internal and external audit requirements
- The time pressure

SOLUTION

- Implemented JiVS: the platform that is a lot more than just a convenient archiving solution.
- It is a platform for managing the complete lifecycle of legacy data and documents

BENEFITS

Using JiVS IMP enabled Woodward L'Orange to achieve a major project in less than four months

Data Migration International was already familiar with the problems that Woodward L'Orange was facing as it had worked on countless other projects like this

In less than two hours ten HR staff could learn how to work with JiVS IMP
